At the beginning of the event, Prof. Dr.-Ing. Radivoje Mitrović, Dean of the Faculty of Mechanical Engineering at the University of Belgrade, gave introduction word and wished all participants fruitful and successful conference. He emphasized the importance of the project and informed participants that Prof. Dr.-Ing. Nenad Zrnić, Project coordinator was guest that morning TV programme on National television where he talked about project and Dual Education in Serbia (interview can be found HERE).

Afterwards, he invited Prof. Dr.-Ing. Nenad Zrnić Project coordinator who presented Erasmus + project *"IMPLEMENTATION OF DUAL EDUCATION IN HIGHER EDUCATION OF SERBIA / DUALEDU„* to the audience so before all presentation they can get familiar with project consortium and the importance of this project in improving higher education system of Serbia. Also, he updated all participants about the news from Ministry of Education, Science and Technological development regarding working group in charge for the preparation on the new Low on Dual Higher Education in Serbia. He announced local project meeting on January 11th when project partners will create proposals for the Low that will be distributed to working group of the Ministry.

After that he gave the floor to Prof. Dr.-Ing. Dragan Domazet, President and Rector of Belgrade Metropolitan University who presented "Overview of the proposed generic and flexible dual education models for higher education in Serbia". This presentation was made from the report dev2.1. Flexible and generic Dual Higher Education Model (DHEM) for Serbia.

Professor Domazet opened discussion and emphasized that is important for the consortium to hear different opinions in order to improve the model.

Minutes of the Forum and detailed discussion are written in detail in separate document prepared by Ms Živana Jakovljević from Faculty of Mechanical Engineering at the University of Belgrade (Annex 1 of this document).

Forum had 41 participants in total (Consortium members, Academic representatives, students…). Carefully designed agenda and presentations of well-known professors and industry representatives were something new and innovative for the audience so discussion at the end was really successful.
