PowMio GmbH

For your IT solution.

Location. Location. Location.

PowMio GmbH is an European IT company based in Karlsruhe, Germany.

Our core business is to make clients competitive in the race of digitalization.

The Digital Force

Approximately

10 Mil.

people are employed in the ICT sector in Germany*

By 2030

2.4%

will be added to the German GDP due to the development of the ICT sector**

*Destatis, Statitsches Bundesamt, Enterprises, persons employed, turnover and investments in the ICT sector, 2015
**Mckinsey Global Institute (2017), Driving German Competitiveness in the Digital Future

Our Focus

TECHNOLOGY CONSULTING

Knowledge held by our engineers prevents our clients in stepping into unforeseen technological pitfalls. Proven patterns gathered on numerous client projects and technologies applied boost the success of our clients.

DEVELOPMENT

We are specialized in web and mobile solutions accompanied by backend development both cloud based or inhouse. Based on our client requirements, our experts will act close to existing teams, both on location or remotely.

UX DESIGN

Our designers help our clients meet the competitive challenges on their web or native front-end. Jointly with clients we work on UX design through wireframes, user interaction work flow, and design of custom UI components.

We are Involved!

Some of our partnerships and clients

... and we're expanding.

Karlsruhe. Belgrade.

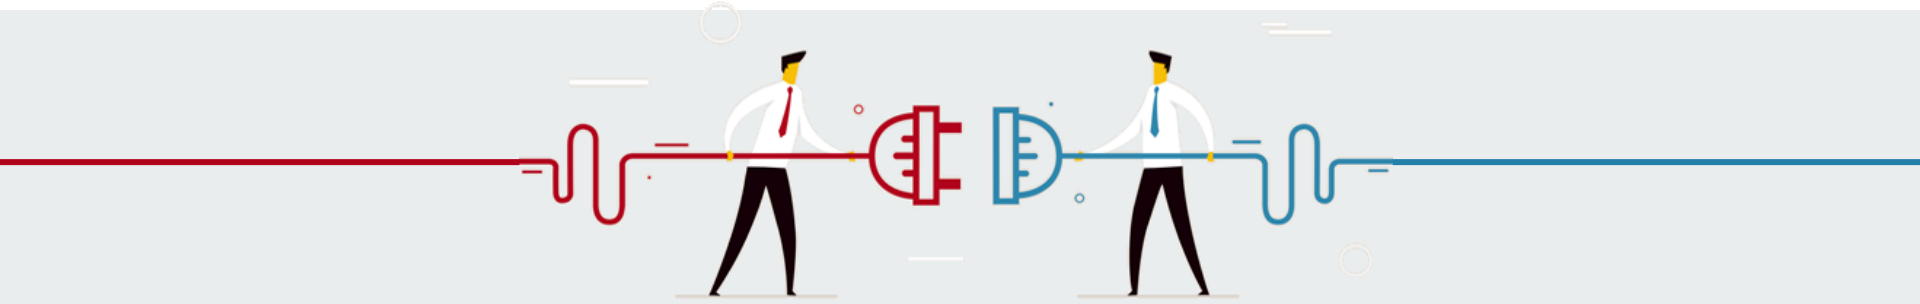

PowMio and DualEdu

Students benefits:
